

Blue Sun Guarantee

Realize Your Full Potential with the Lab Optimization Program

Many labs will benefit from our decades of experience improving SOPs for labs around the world. We offer this unique program to all Blue Sun Customers. We can get you up to speed in 2 days and ensure your operators are comfortable and effective in their various roles.

Save 50% on Average Consumable Costs

Avoid downtime with our loaner instrument program

Some repairs require days to perform but being down for even a short while may cost your lab thousands of dollars. We can ship you a loaner instrument to continue all of your testing while we repair your instrument.

Free Software Upgrades For Life

Get New Users Up to Speed with Web Trainings

Semi-annual web trainings ensure your users know every facet of instrument operation as well as best lab practices and maintenance procedures. This will help new operators feel comfortable with the instrument and improve the care and lifetime of your instruments.

1 Year Warranty on Parts

Guarantee Your Results with Expert Method Support

Most methods work out of the box as our instruments are all pre-programmed with EPA and ISO methods. However for custom applications or challenging matrices, we have expert method support in-house to improve your methods' performance.
